

**IMPORTANT!! PLEASE READ ENTIRE INSTRUCTION SHEET BEFORE ASSEMBLY!!
TO EXPEDITE ANY FUTURE WARRANTY CLAIMS, PLEASE KEEP INSTRUCTION SHEET, WARRANTY CARD AND RECEIPT**

Step 1: Identify all parts packed in the carton against the parts list. Remove all protective materials. Place parts on a non-abrasive surface to avoid scratching.

Step 2: Place the swivel base (with rocker assembly) on a flat, solid surface. Make sure the rocker assembly is positioned all the way into the base. It may have shifted or vibrated out during shipment.

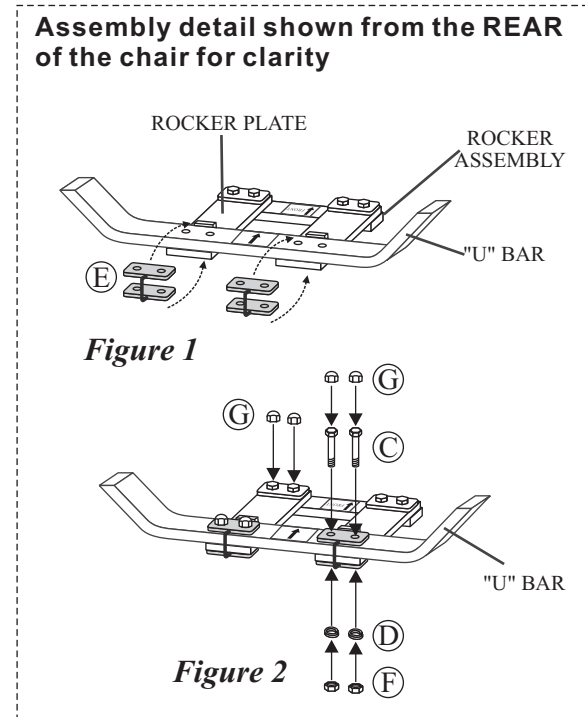

Step 3: Important: We recommend 2 people work together to assemble the chair. Note the arrow labels on the "U" bar and the rocker assembly. Also note the horseshoe shape of the rocker plate. Point the open end of the horseshoe away from you. The arrows on the rocker assembly should be pointing towards you. Set the chair frame on the rocker assembly with front of the seat facing you and the arrows on the "U" bar pointing towards you as shown in **Figure 1**. This is very important for a safe, balanced rocking motion. **If the chair frame has been properly positioned on the rocker assembly, all arrows on the "U" bar and rocker assembly will be pointing in the same direction.**

Step 4: Critical Step: The "U" metal plates must be installed in the proper location. Read this step and carefully examine. Insert the "U" metal plate so that the "U" bar and rocker plate are between both sides of the "U" metal plate. Make sure that the holes in the "U" metal plate are completely aligned with the holes in the "U" bar as shown in **Figure 2**. Guide the bolts through the holes on the top side of the "U" metal plate, through the holes in the "U" bar portion of the chair, through the holes in the rocker plate and then, most importantly, through the holes in the bottom side of the "U" metal plate. It is very important that the holes in the bottom of the "U" metal plate are placed directly beneath the holes in the rocker plate. Add a spring washer and a nut to each bolt as shown in **Figure 2**. **Hand tighten nuts 3-4 revolutions only.** Repeat the same procedure on the other side.

CAUTION: Failure to place the "U" metal plates under the rocker plates and above the "U" bar exactly as shown in the diagram will cause the bolt heads and nuts to damage the structure of the rocker plates and the "U" bar. Damage due to over tightening of bolts or improper assembly could cause injury and may void your warranty.

Step 5: Tighten all nuts and bolts with the hex wrenches provided. **Bolts must be FULLY tightened.** Remove the arrow labels from the "U" bar and rocker assembly. Cover bolts with bolt covers.

Step 6: Your chair should be ready for use. If your chair is not rocking properly, double-check your assembly procedure, especially Steps 3-4. If the chair rocks too far forward to or is difficult to rock backwards, you have probably installed the seat frame backwards on the rocker assembly.

CARE AND MAINTENANCE

FRAMES

Cleaning - Use mild soap and warm water. Do not use abrasive materials, cleansers or bleach products. Rinse with clean water and dry thoroughly.

Maintenance - Periodically clean and dry thoroughly. Be sure to drain any water accumulated inside the frames. To thoroughly drain frames, remove foot caps and tilt the frames, if necessary, to remove all water. This is critical. Water allowed to accumulate inside the frames and then exposed to sub-freezing temperatures can cause damage to the frame tubing. Such damage is not covered under warranty. Always clean, drain and dry thoroughly before storing for the winter. For best results, always store or cover your furniture when not in use. We recommend commercially available outdoor furniture covers. Any small nicks or scratches can be covered with a light application of touch-up paint.

** When cleaning or moving large or heavy items, always have two people work together. Never drag furniture.

FABRICS (CUSHIONS/SLINGS)

Cleaning - Wipe minor spills immediately. Clean with mild soap, warm clean water and soft cloth. Do not use abrasive materials, cleansers or bleach products. Although fabric has been treated to resist stains, occasional use of commercially available fabric cleaners may be necessary. Follow manufacturer's instructions.

Maintenance - The best way to maintain the beauty of cushions and slings is to store them in a dry area and out of the elements when not in use or cover with commercially available outdoor furniture covers.

STRAPS

Cleaning - Wash frequently with mild soap, warm water and a soft cloth. Rinse thoroughly with warm, clean water. Do not use abrasive materials, cleansers or bleach products.

Maintenance - Periodic application of commercially available vinyl cleaners and vinyl protectors will enhance the look and prolong the life of straps. If your strap chair has cushions, make sure any vinyl protectors applied are completely dry before placing cushion back on the chair.
