Step 1: Remove all protective materials and set parts on a flat, non-abrasive surface. Identify parts packed in carton against the parts list.

Step 2: Attach the seat frame to the back frame by using two 1/4"x35 mm bolts and washers as shown in **Figure 1**. Guide the bolts through the holes in the seat frame into the pre-drilled holes in the back frame. **Hand tighten only 2-3 turns.**

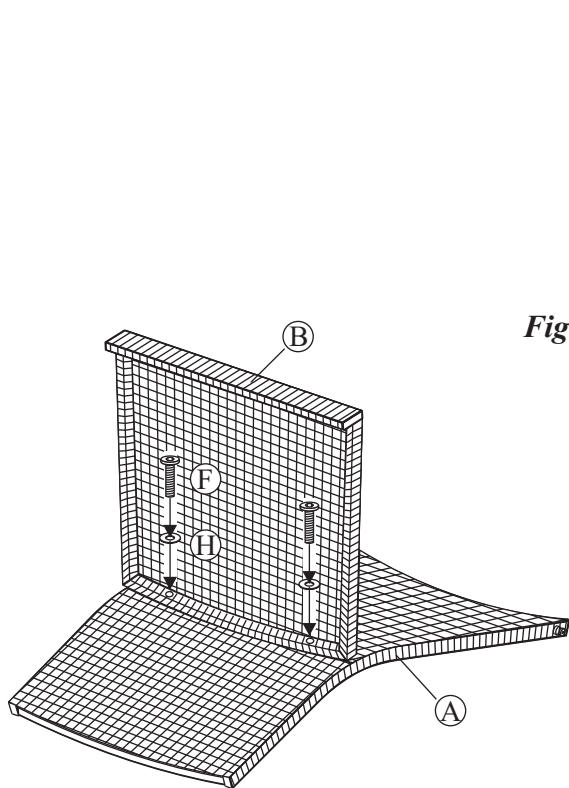

Figure 1

Step 3: Attach the seat and back frames to the left arm. Tighten the pre-assembled bolt in the back frame, then mount the back frame to the left arm and secure it by using the bolt as shown in **Figure 2a**. Attach the seat and back frames to the left arm by using a 1/4"x15 mm bolt, two 1/4"x50 mm bolts, and two washers as shown in **Figure 2b**. Guide the bolts through the holes in the seat frame, into the pre-drilled hole in the left arm. **Hand tighten only 2-3 turns.** Repeat this process (fig.2a & fig.2b) for the right arm.

Step 4: After making any necessary adjustments to the alignment of the chair, use the hex bolt driver to tighten all bolts. **Note:** each bolt must be tightened a few revolutions at a time. In order to apply equal pressure to all bolt joints, we recommend working in a cross corner (X) fashion. Repeat until all bolts are tight. **Do not over tighten.** Over tightening may strip bolts. Cover all bolts with covers provided.

Step 5: Your chair is now ready for use.

CARE AND MAINTENANCE

FRAMES

Cleaning - Use mild soap and warm water. Do not use abrasive materials, cleansers or bleach products. Rinse with clean water and dry thoroughly.

Maintenance - Periodically clean and dry thoroughly. Be sure to drain any water accumulated inside the frames. To thoroughly drain frames, remove foot caps and tilt the frames, if necessary, to remove all water. This is critical. Water allowed to accumulate inside the frames and then exposed to sub-freezing temperatures can cause damage to the frame tubing. Such damage is not covered under warranty. Always clean, drain and dry thoroughly before storing for the winter. For best results, always store or cover your furniture when not in use. We recommend commercially available outdoor furniture covers. Any small nicks or scratches can be covered with a light application of touch-up paint.

** When cleaning or moving large or heavy items, always have two people work together. Never drag furniture.

FABRICS (CUSHIONS/SLINGS)

Cleaning - Wipe minor spills immediately. Clean with mild soap, warm clean water and soft cloth. Do not use abrasive materials, cleansers or bleach products. Although fabric has been treated to resist stains, occasional use of commercially available fabric cleaners may be necessary. Follow manufacturer's instructions.

Maintenance - The best way to maintain the beauty of cushions and slings is to store them in a dry area and out of the elements when not in use or cover with commercially available outdoor furniture covers.

STRAPS

Cleaning - Wash frequently with mild soap, warm water and a soft cloth. Rinse thoroughly with warm, clean water. Do not use abrasive materials, cleansers or bleach products.

Maintenance - Periodic application of commercially available vinyl cleaners and vinyl protectors will enhance the look and prolong the life of straps. If your strap chair has cushions, make sure any vinyl protectors applied are completely dry before placing cushion back on the chair.
