CARE AND MAINTENANCE

FRAMES

Cleaning - Use mild soap and warm water. Do not use abrasive materials, cleansers, or bleach products. Rinse with clean water and dry thoroughly.

Maintenance - Periodically clean and dry thoroughly. Be sure to drain any water accumulated inside the frames. To thoroughly drain frames, remove foot caps and tilt the frames, if necessary, to remove all water. This is critical. Water allowed to accumulate inside the frames and then exposed to sub-freezing temperatures can cause damage to the frame tubing. Such damage is not covered under warranty. Always clean, drain and dry thoroughly before storing for the winter. For best results, always store or cover your furniture when not in use. We recommend commercially available outdoor furniture covers. Any small nicks or scratches can be covered with a light application of touch-up paint.

** When cleaning or moving large or heavy items, always have two people work together. Never drag furniture.

FABRICS (CUSHIONS/SLINGS)

Cleaning - Wipe minor spills immediately. Clean with mild soap, warm clean water, and a soft cloth. Do not use abrasive materials, cleansers or bleach products. Although fabric has been treated to resist stains, occasional use of commercially available fabric cleaners may be necessary. Follow manufacturer's instructions.

Maintenance - The best way to maintain the beauty of cushions and slings is to store them in a dry area and out of the elements when not in use or cover with commercially available outdoor furniture covers.

STRAPS

Cleaning - Wash frequently with mild soap, warm water, and a soft cloth. Rinse thoroughly with warm, clean water. Do not use abrasive materials, cleansers, or bleach products.

Maintenance - Periodic application of commercially available vinyl cleaners and vinyl protectors will enhance the look and prolong the life of straps. If your strap chair has cushions, make sure any vinyl protectors applied are completely dry before placing cushion back on the chair.
